What was already accomplished so far?

- Screening tool of legislation framework and services provided connected to educational mediation in EU countries with focus on partner countries.

The main aim of the screening tool was to provide a study of the current situation on existing laws, policies, theories, and aspects of educational mediation. The screening tool will serve as an inspirational and informative base for the development of the training programs for educational mediators and peer mediators as well as for the evaluation of the collected good practices in educational mediation.

- **Collection of Practices on Educational Mediation**

This output offers an overview of the current practices and approaches in the partner's countries used for mediation in education. You can find comparison between the methods and approaches delivered in the partners' countries with a focus on similarities and differences but most of all what works and what do not in different conflict situations. Teachers can benefit from this practices and facilitate students to take on active position in solving every day conflict situations. The tool is available in English and in the partners' languages.

[Consult the collection of practices on Educational Mediation](#)

What is the next step?

- Design and development of a training program for educational mediators

The training programme for educational mediators (ProEM) will enable learners to acquire professional knowledge, skills and competences to create and maintain a calm and tolerant educational environment for everyone engaged through the use of educational mediation tools.

Structure of the Training

- **Module 1.** Fundamentals of Conflict
- **Module 2.** General and specialized mediation
- **Module 3.** Tasks of Educational Mediation and Educational Mediator
- **Module 4.** Psychological Skills in Educational Mediation
- **Module 5.** Educational mediation between peers
